

CONSTRUCTION OF THE NEW CHURCH BUILDING AT SAN GREGORIO, MURRA

May 25, 2010

HELLO BRETHREN,
THIS IS A LETTER THAT I JUST RECEIVED FROM BROTHER ANTONIO GRANERA WHO HELP SUPERVISE THE CONSTRUCTION OF THE NEW CHURCH BUILDING AT SAN GREGORIO, MURRA. THIS IS A BREAKDOWN OF THE COST OF THE MATERIALS AND LABOR. WE WILL BE HAVING SOME PICTURES TO GO ALONG WITH THIS GREAT NEWS IN THE COMING DAYS. THE TRANSLATION OF THE REPORT IS AS FOLLOWS:

ALL FOR HIS GLORY, DAVID.

Brother David, I hope that you are well, I ask that you excuse me for the delay of this report, I have been busy with the purchase of the materials for the construction and attending other matters of some of the brethren.

For the temple in San Gregorio you sent \$1400 this was changed to 20.20 cordobas totaling 28,280 cordobas in all.

EXPENSES OF THIS MONEY:

We bought 4 trees, these were the following: an oak Tree, this was bought to make carriers, which were 5, this tree cost 300 cordobas, three trees of Pine for the wood of the ceiling and windows and doors a cost 600 cordobas and the other two were were 300 cordobas each, the expense in the purchase of trees was 1,500 cordobas. The processing of these trees cost 2,000 cordobas, the transportation of this wood to the temple cost 1,300 cordobas. We bought 30 bags of cement for 190 cordobas each or, in the 30 bags I spent 5,700 cordobas. We bought 3 sheets of zinc at 200 c/or in the 3 sheets I spent 600 cordobas. We bought 13 lb of nails, each pound cost 18 cordobas, in the 13 lb I spent 144 cordobas. I bought 8 m of sand, I spent 2,400 cordobas. Labor was 8000 cordobas. In food I spent 4,000 cordobas, brother David, in food we spend that quantity because the work itself was extended due to the land where we built the temple was too hard, this work we initiated it on the second Sunday of January and we finalize it on the last Saturday of April and this work we did not leave it until we finished it (My Notation: This is very true for these brethren as those that have gone with me to Nicaragua can agreed, that they do not stop working on something they start until it is done). In our passage (transportation) I spent 3200 cordobas.

I spent a total of: 29,394 cordobas the difference was 1,114 cordobas, you can see that in passage I spent 3200 cordobas because during this trips I was always accompanied by a brother of somoto to go with me to murra, the difference was made up with the \$20.00 that you send every month to go to Murra to help, of this expense you can verify it with

brother Ernesto and brother Talo who were always with me. Brother I do not tire to give thanks to God for what He is doing for us through you. Please greet all the brethren that helped us. Thanks you for your love toward us, I tell you that the joy here is great and beautiful for the purchasing of these materials.

En pasaje se gasto 3200 cordobas.

Gasto total: 29,394 cordobas el incremento fue de 1114 cordobas, usted puede ver que en pasaje se gasto 3200 cordobas porque durante este viaje siempre me acompaño un hermano de somoto a murra, el incremento los uplimos con lo que usted manda \$20 de este gasto usted lo puede verifiacar con el hermano Hernesto y el hermano Talo que siempre anduvieron conmigo.

Hermano no me canso de dar gracias a Dios por lo que el haciendo con nosotros por medi de usted, nos saluda a todos los hermanos que nos ayudan.
